FROM THE AUCTIONEERS

A more enthusiastic cowman you would not meet.

Michael has always liked very good conformation and production cows. View the photographs on line and in the sales catalogue and you will appreciate the quality you have the opportunity to purchase. Good udders, great capacity, lovely dairy bone, obvious productive ability with high indices are what you will view.

The desire to milk less cows and run the replacements on the dairy platform has necessitated the sale of these animals which otherwise would have been retained.

Autumn calved, spring calving cows and heifers, you have both in this offering. If you are after numbers to give you both immediately or in the spring you have it here.

As auctioneers we recommend this quality offering. Look after them and they will look after you.

The Auctioneers

Conditions of Sale

The following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specified a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
3. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
4. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2025, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2025, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

MALE GUARANTEES:

The entry of any bull in this catalogue constitutes a guarantee by the seller that the purchase price without interest, expenses, costs or damages shall be refunded if a bull proves either totally incapable of service or totally infertile. If any bull does not possess reasonable fertility, although is not totally infertile, is the subject of dispute, then this shall be settled by an arbitrator appointed by the auctioneers.

Any complaint must be lodged with the auctioneers by the 30 November 2023. The cost of taking delivery and returning the bull to the seller is to be borne by the buyer. A veterinary surgeon's Certificate shall be produced by the buyer to support all claims and the costs associated with this shall be borne by the buyer.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

PAYMENT TERMS: Payment 14 days after date of sale. Sale is being transacted by PGG Wrightson.

PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW.

VENDORS FOREWORD

The Hollipork Holsteins and Ayrshire selection sale brings together a wide range of cattle to suit all buyers. From high BW/PW cows, to big production cows, to very good uddered cows. I offer a very good group of cows I am proud of.

My emphasis is placed on milking good cows with good udders, aiming for 600ms+ while doing it profitably. Whilst being mostly grass fed we add maize through the winter, silage in the summer, 3kg of pk a day to hold a good fat test and hold weight on the girls and 1kg of protein to push milk.

After building numbers and contemplating milking more cows, I have now decided after a hard winter to do the opposite and actually drop down from the 270 cows I'm milking at the moment and bring all young stock on farm permanently. So I have extra stock for the sale.

Next year I aim to push per cow production higher than the 600ms I'm producing at the moment and so I'm selling a lot of my very profitable smaller stature girls.

I'm bringing forward a great line of Ayrshires that I am proud to sell. I am fond of Ayrshires and still think they have a place in NZ dairying. These cows have done a great job for me and I will keep pushing to breed great Ayrshires with the girls I have left.

The R2's ran with my two stud bulls, Ayrshire bull Hollipork Rubi Ruthless (522591) and Holstein bull Hollipork Alco Hunter (123754) for six weeks from 3/10/23 to 18/11/23. The heifers have been scanned in-calf with rough natural mating due dates.

Any in milk cow I will happily milk until the 15th of July and any of the five new born autumn calves I will rear until 100kg if needed for any buyers. Cow and calves as mentioned above stay on the property at purchaser's risk.

All the best to all purchasers.

MICHAEL TERPSTRA

The R2's ran with my two stud bulls, Ayrshire bull Hollipork Rubi Ruthless (522591) and Holstein bull Hollipork Alco Hunter (123754) for six weeks from 3/10/23 to 18/11/23. The heifers have been scanned in-calf with rough natural mating due dates.

Herd Cell Count is presently running at 100,000.
