

## Pa Hill Ayrshires

#### Nait number 243285

#### **Vendors Forward**

Writing this 15/03/25

We are still milking at three sheds, although water is getting critical on one of the farms, cows are in good condition, but are using our winter silage to keep them going and our autumn cows are just starting to calve, so that's going to make it interesting in the near future.

In our sale this year we have 57 mixed age Ayrshires all spring calving, mostly rwb matings, our vet is pretty good with scan dates, so dates on pedigrees should be close.

The bulk of our herd calves 10 sept through to end of Nov, so a lot of heifers are late born which is why so many 2 & ½ year heifers are catalogued, which also limits what suits normal farming practices. Our rsg 2 heifers have let us down this season with very few having early matings, we had them running in 5 different mobs spread all over our farms but all are very similar in their matings, regardless of size or breed.

Cows sold in previous sales have done better where ever they go, some doing in excess of 700 milk solids, where our best cows here only get to 320 milk solids, whether it's the hills, kikuyu pasture or the useless farmer I don't know, maybe a combination of it all.

Many of our cows don't calve every year but are milked through unfortunately their excess days don't record to pedigrees.

I don't pretend to know how to breed a show cow, but a few of the north island champion cows have been bred here or go back to cows purchased from past sales, we support our local show in February, this year we took 49 head of various breeds to show.

All cows will be dry at time of sale, any with higher cell counts will be treated with dry cow and recorded through Minda

Herd is EBL & Brucellosis free & BVD tested and is TB C10 Blackleg and Lepto Vaccinated

If you are ever in the Far North and have time come and visit us and get the proper tour of Pa Hill

#### **CONDITIONS OF SALE**

In accordance with the NZ Stock & Station Association Auction Terms and Conditions, the following general conditions apply to this auction where applicable

#### **FEMALE GUARANTEES**

- 1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
- 2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
- 3. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale.
- 4. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
- 5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2026, the seller shall refund in full the purchase price direct to the buyer.
- 6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2026, the seller shall refund in full the purchase price direct to the buyer.
- 7. In the case of a calf or yearling heifer being flushed for embryo transfer, either with or without success, all guarantees become null and void.
- 8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
- 9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
- 10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

#### **GENERAL CONDITIONS**

**Delivery:** Each lot at the fall of the hammer, be at the risk of the buyer.

**Insurance**: If transit or annual insurance is required the purchaser is responsible to arrange.

**Instructions:** Buyers must sign all dockets before leaving and have transport arranged.

**Transfers:** Sellers are responsible for the completion of transfers. No buyer shall be entitled to withhold payments for the delay of transfer information

**Cattle for Export:** Breed Society must inspect as suitable for Export Certificates. The seller is responsible for the 15% commission payable on all cattle sold for export.

Payment terms: Payment due 14 days after auction date
