Introduction

Kohitiata & Edenmore 2026 Sale | On account of Norm Atkins

Tuesday, 7 April 2026 at 11:30am

187 Church Street, Makotuku, Dannevirke and on bidr®

Contacts:

Andrew Reyland (PGG Wrightson): 027 223 7092

Bill Moore (PGG Wrightson): 027 825 7505

Comprising of.

34	In-calf Jersey heifers
7	In-calf Ayrshire heifers
6	In-calf Milking Shorthorn heifers
3	In-calf Kiwi Cross heifers
14	In-calf Holstein Friesian heifers

Conditions of Sale

The following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
3. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
4. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2027, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf,

dead or alive. Should the heifer fail to produce a calf by the 31 December 2027, the seller shall refund in full the purchase price direct to the buyer.

7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

PAYMENT TERMS: Payment 14 days after date of sale.

PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW.

Vendor's Foreword

We offer again a pretty decent assortment of in-calf heifers that we are proud of. We strived to grow them out well particularly through the last cold winter. Once again wonderful late summer rain following an early dry. As long as you are not being buried in a landslide or having your house or road taken out in flood waters – it is all good. Our deep sympathies with all those suffering in this way and also friend (and old client) David Marshall lost with pancreatic cancer.

We continue to chase the polled gene across all breeds with the Holstein Friesians probably completely polled in two seasons with the large gene pool of top ranked polled sires now available. We are able to use some of the top horned bulls over the homozygous females now.

Once again please do not underestimate the potential of the calves these heifers are carrying as we strive to breed a more robust calf/cow of superior type for our more marginal dairying land. Many of our top cows are by homebred polled sires.

While production and thriftiness are the main drivers behind our breeding objectives – our classification results continue well above the national averages. This season 44 Jerseys classified (all 4 yr olds and some reclassified) averaged 7.7 for U.O. and 7.6 for D.C., including 9 cows 90 pts or better. The 12 Holstein Friesians averaged 6.6 for U.O. and 7.25 for D.C. with 84 pts ave.

We no doubt waste money cataloguing the heifers with their 3GP's, but we want to show those who have some knowledge of breeding that we have used all the "big name" bulls. It has been policy to use the highest BI or BW bulls since 1978 to set the benchmark along with an assortment of different genetics. If the high BW heifers haven't often been the top producers. Well you can draw your own conclusions. Photos of cows are not meant to be flash. Just an honest representation of the cows in their working clothes.

The heifers are not genomically tested, so no idea if they are above or below their ancestry, but from my limited experience of genomics so far, it is still just a lottery.

We don't breed for low emissions. We may already

have them. We haven't done anything about bloat for five seasons. Even on our clover rich pastures. Anecdotally talking to farmers and from the reduced drums of plyronic being sold at our Farm Source, I think we are not the only ones. More a reflection of pasture quality with less fibre, than genetics I believe.

It is well known I am not a believer in the methane "problem". When the IPCC – the Vatican of the Global warming industrial religion – back in 2022 declared (based on the research of their man, Dr Myles Allen of Oxford) that 1 tonne of methane is NOT the equivalent of 28 tonnes CO₂ but only 7 tonnes; 3-4 times less. I can only speculate why the government and Dairy NZ still insist on the old estimate. I note only that there would be an awful lot of jobs, including research – solving this non-existent problem, and future tax dollars lost – if we used the seven figure for CH₄.

There has recently been \$29 million of taxpayer's money and about \$10 million of dairy farmers money (through DairyNZ and Fonterra as a big part of the AgriZero consortium) wasted on a methane measuring satellite that flew off into space. What did they expect to measure anyway – a cloud of methane over a herd of cows?

To blame the agricultural industry (mainly ruminant animals) for 48% of NZ's emissions is clearly ridiculous. While we go on merrily burning fossil fuels at a barely reduced rate. Whether you believe CO₂ is causing global warming or not is largely irrelevant. If the human species wants to be around for another two to three thousand years, we have to wean ourselves off fossil fuels. They will run out.

I note that the 1960 Encyclopaedia Britannica had methane at 0.002% of the atmosphere (1958 measurement). At Barents Head it is now 0.0018%, having risen from 0.0017% when the station was set up in the late 80's. Lots of flatulent bureaucrats and politicians plus a nearly full landfill at Happy Valley across the Wellington Harbour; but no dairy cows upwind until you get to Tasmania.

Hope you all get good value buyers.

Thanks,
Norm Atkins

Auctioneer's Foreword

Norm's passions include his animals, Jerseys, Milking Shorthorns, Ayrshires and Holstein Friesians and more recently the Charolais Stud. He is particularly interested in polled genetics and also the environment where he has been occasionally known to be a bit spirited in his opinions!!

This offering of in-calf heifers are bred from hard working no fuss cows that walk long distances on a challenging farm. They have proven shifting ability with the late Dave Marshall an annual buyer

of both Jersey's and Friesian's and always felt they were excellent additions to his herd.

This is a great opportunity to purchase no nonsense high quality heifers I am very confident will not disappoint wherever they go.

DISCLAIMER:

All details and descriptions as to stock referred to in this catalogue or otherwise provided by the auctioneer or any other company employee or agent ("sales information") have been supplied by the Seller and have not been independently verified by the selling companies. The selling companies, their employees and agents make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of the sales information (including, but not limited to the accuracy or completeness of details and descriptions of stock and other contents).

Buyers, advisers and all other persons viewing or dealing with the stock must make their own assessment and judgement on the stock and sales information.

The selling companies, its employees and agents are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information or representation included in or omitted from.

ATTENTION:

Under the Health and Safety at Work Act 2015, we wish to bring to your attention your responsibilities while attending this on-farm sale. You are in a multi-hazard area and are requested to observe the following rules:

- All children under the age of 16 must be accompanied and under the supervision of an adult
- You are not to enter any yards, pens or races where stock are being moved or held
- Keep to the walkways or within the flagged areas provided
- Report any accident to the site office
- If you see anything unsafe, report it to the site office
- Follow the directions of the Auctioneer and selling Companies at all times.

The auctioneer has overall control of this site, and will ask you to leave if the above rules are not followed.

The manager on hare patrol and pasture assessment. He is pretty happy with the pasture management and genetic ability of the cows. Since coming back onto T.A.D. milking in May we had hopes of doing 1,200kgMS/HA compared to the 1,000 kgMS/HA we were doing on O.A.D. But with a reduction from 2.8 to 2.65 cows/HA at peak, are more likely to end up on 1,160kgMS/HA.

Still pretty decent with no in-shed feeding system and a Nitrogen surplus of - 7kg/HA.

Next season we will have a Halter tower on this hill to help with future improvements and labour.

Kohiti Miss Holly EX5, dam of sire Kohiti Holyoake P

Notes on Service Bulls

DGRR-23-25 KOHITI KAVAMAN

This Superman son goes about five generations to Kava Kay Glover, the American record holder by the game changer bull in America, Highland Magic Duncan.

Her full brother Goodtimes Charie was used in NZ and is behind my top Jersey cow 'F' family. Her daughters embryos (by Beretta from memory) were bought into the country by Don McDonald with the resultant daughters bought and bred on by Lloyd Wilson of Denson Dale. The only horned bull.

DGRR-22-266 KOHITI METROPOLIS P

The Majestic family has had a big influence in our herd through sons. The grandam and great grandam were both my top producing cows in their prime.

DGRR-24-305 KOHITI LAZER P

A son of a very good cow bred from the Williams

branch of the Lace family that produced the top bull Williams Pans Link. He has an outstanding VG88 Floyd sister that the dam was carrying. The full sister to a yearling. LIC had a contract on at the time of the Roma dispersal. We are milking our first Lazars. Impressive and milky like K. Lazer Flash VG88, LW 581.

DGRR-24-315 EDENMORE GULLIVER P S3F

By the top polled bull from a big Beamer of the reliable Seagull family that came down from an outstanding Gemis foundation cow.

DGRR-24-85 EDENMORE SNOWMAKER SIS

A polled roan from a big tidy Fidelity cow which they tended to be.

DGRR-23-115 EDENMORE STEAMER

A big polled bull that hopefully will leave some daughters like the magnificent Edenmore Danes Frond EX.
